

DEENBANDHU CHHOTU RAM
UNIVERSITY OF SCIENCE AND TECHNOLOGY

Murthal, Sonipat (Haryana)

TECHNOVA — 2K26 —

"Innovate. Integrate. Inspire."

A National Level Technical Extravaganza

Celebrating Innovation, Technology & Creativity

Venue: DCRUST, Murthal

Date: 13th - 14th March

WELCOME

ABOUT TECHNOVA

TECHNOVA is the Annual Technical Symposium of DCRUST and is one of the largest of its kind in Haryana. Technova has grown by leaps and bounds over the years. It is held over 2 days in the month of March every year and has consistently participants from all over NCR region. Technova is all about technical creativity and innovation. Innovation in students is always cherished and supported. In its previous editions, Technova brought participation pool of over 2500 students from the engineering colleges and Universities located in NCR region. Many technical and entrepreneurship events are held during the fest including Robotics, Coding marathons, quizzes events. These are broadly classified into various departmental and centralized events. Apart from this, Workshops and exhibitions are also held. To highlight the social responsibility of engineers, social/environmental awareness initiatives are undertaken under the banner of various departments. Project Expo is also organised in order to encourage the practical knowledge, Hobby Expo and Poster Presentation events are another major attraction for the participants.

ORGANIZING COMMITTEE

Chief-Patron	: Prof. (Dr.) Shree Prakash Singh (Hon'ble Vice-Chancellor)
Patron	: Dr. Ashutosh Mishra (Worthy Registrar)
Convener	: Prof. (Dr.) Suresh Verma (Dean Students' Welfare)
Coordinator	: Dr. Rajeshwar Dass, Assoc. Prof., ECED
Co-Coordinator	: Dr. Mamta Bhagat, Associate Prof., CHED
Student Coordinator	: Ms. Rishi (ECED)
Student Co-Coordinator(s)	: Mr. Aditya Aggrawal (CSED), Mr. Shiv Kumar (MED) and Ms. Nandani (BT)

BE THE PART OF ANOTHER MILESTONE

ABOUT DCRUST

Deenbandhu Chhotu Ram University of Science & Technology, Murthal came into being on 6th November 2006 by upgrading erstwhile Chhotu Ram State College of Engineering, Murthal through an Act 29 of 2006 of the Legislature of the state of Haryana with the vision to facilitate and promote studies and research in emerging areas of higher education with focus on new frontiers of science, engineering, technology, architecture, management studies, humanities, and also to achieve excellence in the above mentioned and related fields. The University has been considered eligible for grants under Section 12(B) of UGC Act, 1956 in March, 2009. The technical and professional College/Institutes located in the District Sonapat have been affiliated to the University. University has a Central instrumentation Laboratory which is available to scholars belonging to different departments of the university as well as outside institute as central research facility.

LOCATION

The University is located in NCR on National Highway No. (G.T. Road) about 50 km from SBT, New Delhi towards Chandigarh and 8 km from Sonapat railway station. The location of the University falls within one of the growing industrial belts of Haryana extending from Kundli to Panipat.

CAMPUS

It is a residential university with a campus sprawling over 273 acres of land. Architecturally the campus has been developed in four distinct zones - academic, residences, hostels and recreational. The academic premises comprise of five blocks including one administrative block. One iconic building Saraswati Library is operational and a convention centre has been built to hold up Cultural Fest/Conferences/Convocation, etc.

ACADEMIC PROGRAMMES

The University intends to impart high-end education through 33 Regular PG Courses and 10 Regular UG Courses in the academic session 2025-26. University is also running Ph. D. Programme in almost all the disciplines. University also offers Certificate Courses in foreign languages such as French, Chinese, Arabic languages and German.

GENERAL RULES

1. The decision of the judges and the organizing committee shall be final and binding in all matters related to the event.
2. Participants must strictly follow the instructions given by the coordinators and volunteers throughout the event.
3. Use of mobile phones or any electronic gadgets is strictly prohibited during the event.
4. Discussion of answers, ideas, or strategies with other teams or participants during a round is not allowed.
5. Any attempt to copy, exchange, alter, or tamper with question sheets, answer sheets, cards, or materials provided will lead to immediate disqualification.
6. Misbehaviour, use of inappropriate language, or any action that disrupts the discipline and smooth conduct of the event will result in disqualification.
7. Participants are expected to maintain discipline, professionalism, and decorum at all times within the event premises.
8. Teams must adhere to the time limits specified for each round. Failure to do so may result in elimination.
9. No team shall be allowed to change its members after registration.
10. The organizing committee reserves the right to modify the rules, rounds, or format of the event if required, with prior announcement.

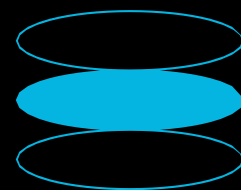

TECHNOVA 2K26

EVENTS LIST

1. PROJECT EXPO
2. HOBBY EXPO
3. ROBOTICS(THINKSBOTS)
 - a. Walking-Dead
 - b. Dungeon-Drive
4. POSTER PRESENTATION
 - a. Branch wise for all branches of Engineering, Architecture & Sciences
5. COSMOS: (CSE)
 - a. Web Master
 - b. Techno Quiz
 - c. Think Future
6. INTEC: (ECE)
 - a. Roastverse
 - b. Prompt2Poster
 - c. Circuit design & debugging competition
- 7.SEE: (EED)
 - a. Tech Charades
 - b. Tech-Bid
 - c. Machine Mantra
8. MEDITRONICA: (BME)
 - a. Poster Making Competition
 - b. Biomedical Tech Quiz
9. SOMEK: (MED)
 - a. Sky Glider
 - b. Design Mind
10. NIRMAN: (CIVIL)
 - a. Chakravyuh
 - b. Bridge it Right
 - c. Think & Sprint
11. MANTHAN: (CHE)
 - a. Knowledge Knockout Quiz
 - b. Get Recognized for your Personality
 - c. Chemsark
12. ENGGENESIS: (BT)
 - a. The Brainy Brawl
 - b. Brain Quest Arena
13. RASAYANAM: (Chemistry)
 - a. Science Quiz
 - b. Magic of Chemistry
 - c. The Alchemist's Cipher
14. RAMAN: (Physics)
 - a. Physi-Hunt
 - b. The Escape Room
 - c. Innovision
15. MATHEMAGICIANS: (MATHEMATICS)
 - a. Poster Making
 - b. Debate
 - c. Quiz
16. YOUNG THESPIANS: (MBA)
 - a. Team Titans
 - b. Brand Storm
 - c. Business Hunt
17. SAVERA
 - a. Innovation Odyssey Challenge
 - b. Tech Titans Trivia
 - c. Cyber Canvas
18. E-CELL
 - a. The Corporate Clash
 - b. Mix-Matched
19. CEEES
 - a. Ideathon
 - b. Agri-Techpictionary
 - c. Seed Sorting Race
20. DCRUST ODC
 - a. Codebug
 - b. SQL Master
21. LISOC
 - a. Student of the Year
 - b. The Open House Debate
22. SUNSHINE
 - a. Gaming Event
 - b. Treasure Event

PROJECT EXPO

About Project Expo

- Project Expo is an organized presentation and display of models or working prototypes developed as solutions to real-world problems.
- Engineering and Science students work on various academic and innovative projects throughout their academic journey. These projects play a vital role in shaping their careers by helping them:
 - Apply theoretical knowledge to practical applications
 - Develop problem-solving skills
 - Build innovation mindset
 - Enhance technical presentation abilities
- **The primary goal of this Project Expo is:**
 - To provide a platform for students to showcase their knowledge and technical skills
 - To motivate future engineers and scientists to think innovatively
 - To develop interest in science and technology among upcoming generations
 - To create a knowledge-sharing environment among technocrats
- This year's edition promises a perfect blend of innovation and eloquence.
- **Entries are open for all Engineering and Science branches.**

General Rules for Project Expo

1. Only Engineering/Science students from any institution/university are allowed to participate.
2. Each team can have a maximum of 5 members.
3. Minimum two team entries are required for the declaration of a winner.
4. At least one team member must be present during the display.
5. The project must be in working condition.
6. Participants must carry valid College/University ID cards.
7. One participant can participate with only one project.
8. Standard laboratory safety rules must be followed.
9. Students must arrange their own equipment (battery, charger, extension cords, etc.).
 - Electricity outlets will be provided only if requested in the entry form.
10. The Abstract of the project must be sent to: projectexpocoordinator@gmail.com (Detailed abstract format will be available on the website.)

Regulations for Competition & Display

1. Projects will be judged branch-wise, and winners will be declared accordingly.
2. For competition display, teams must present their project in one of the following ways:
 - Printed Block Diagram on A4 size cardboard (standable on table)
 - OR a Poster including:
 - Introduction
 - Block Diagram
 - Working Principle
 - Advantages
 - Disadvantages

- OR Laptop presentation (PPT)
- 3. Poster must be prepared in the given format, which will be shared later.
- 4. Each team will get 7-10 minutes to explain their project to the judges.

Important Points – Project Expo

1. Space Allocation:

Teams will be provided designated space at the venue to set up their model/design for exhibition and judging.

2. Certificates:

Participation certificates will be awarded to all students who display their projects.

3. Equipment Responsibility:

Students are solely responsible for the security and safety of their equipment and belongings.

4. Participation Form:

All participating students must fill out the participation form available on the **Technova website**.

5. Judges' Decision:

The decision of the judges will be final and binding.

6. Right to Modify Rules:

The organizers reserve the right to modify any or all rules if required.

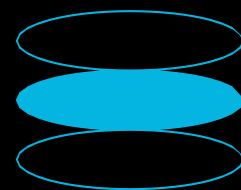

Any updates will be communicated to registered participants.

7. Regular Updates:

Participants are advised to check the official website regularly for updates and announcements.

HOBBY EXPO

About Hobby Expo

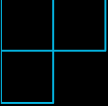

Hobby Expo is a creative platform where students can showcase their personal collections and talents. It provides an opportunity to display hobbies in a presentable and professional manner while competing for top positions across all branches and years.

Participants can exhibit collections such as:

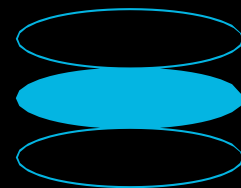

- Stamp collections
- Coin collections
- Art & craft work
- Photography collections
- Handmade models
- Any other unique hobby-based collection

Rules and Regulations

1. It is a team event.
2. Each team can have a maximum of 2 members.
3. Participants must carry valid College/University ID cards.
4. Students must display/exhibit their hobby collection in a proper and presentable manner.
5. One member can display only one hobby at a time.
6. Students are solely responsible for the safety and security of their belongings. The organizers will not be responsible for any loss or damage.
7. Each team will be allotted one table/space at the venue for exhibition and judging.
8. There will be 2 overall winning positions across all branches and years.
9. Students must remain present during the exhibition and judging of their hobby.
10. All participating students must fill out the participation form available on the Technova website, along with details of their exhibition.
11. Only the best and most relevant entries will be selected for the Hobby Expo.
12. The decision of the judges will be final and binding.
13. The organizers reserve the right to modify any of the above rules if necessary. Participants will be notified accordingly.

POSTER PRESENTATION

About Poster Presentation

Students will prepare and present a technical research poster based on their research work or innovative ideas.

Participants will get an opportunity to:

- Showcase their research in front of judges and attendees
- Explain their methodology and results
- Interact with experts and peers
- Demonstrate technical knowledge and presentation skills

Posters will be displayed as per the specified schedule during Technova.

Eligibility

- UG Students
- PG Students
- Ph.D. Scholars
- From all disciplines related to Science & Technology

Poster Specifications : Poster Size: 2 × 3 feet (60 × 90 cm)

Your Poster Must Include:

1. Title of the Work
2. Name(s) of Author(s)
3. Affiliated Organization(s)
4. Abstract
5. Background Information
6. Objectives
7. Materials and Methods
8. Results (Tables, Graphs, Diagrams, etc.)
9. Conclusions
10. Discussion & Future Scope
11. **Technical Poster Presentation Topics**

Participants can choose topics from the following domains:

- High-Performance Computing
- Advances in Communication and Networks
- Image and Multimedia Processing
- Machine Learning & Deep Learning
- Data Science

- Cognitive Computing
- Artificial Intelligence
- Data Mining & Data Warehousing
- Cloud Computing
- Big Data & Data Analytics
- Software Engineering
- Information and Signal Theory
- Acoustical Signal Processing
- IoT (Internet of Things)
- Electric Vehicles
- Renewable Energy
- Smart Grid
- Mobile & Wireless Communications
- Application of Power Electronics to Power Quality Improvement & Industrial Drives
- Emerging Power Semiconductor Devices
- Latest Converters for Renewable Energy
- Computer-Aided Power System Protection
- Robotics
- Self-Healing Concrete & Green Concrete
- Recent Trends in Civil Engineering
- Modern Construction Techniques
- Emerging Topics related to Science & Technology disciplines

Evaluation Process

Student presentations will be evaluated by a judging committee based on the following criteria:

1. **Delivery of Presentation**
 - Clarity of explanation
 - Confidence and communication skills
 - Ability to answer questions
2. **Originality of Work**
 - New concepts and innovations
 - Creativity in problem-solving
3. **Organization & Structure**
 - Logical flow of content
 - Proper arrangement of sections in poster
4. **Quality of Data & Materials**
 - Clarity of graphs, tables, and diagrams
 - Effective use of visuals
 - Neat and professional presentation
5. **Research & Analysis Techniques**
 - Appropriate methodology
 - Depth of analysis
 - Technical accuracy
6. **Completeness of Work/Project**
 - Coverage of objectives
 - Clear conclusions
 - Future scope discussion

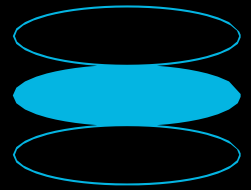

Student Competition Guidelines

1. Presenter must register for the Poster Presentation in TECHNOVA.
2. The student must be both the primary author and presenting author.
3. The student must present his/her own original work.

4. During the event, a judging committee will evaluate and select the best poster presentations.
5. Winners will be announced during the Valedictory Function of TECHNOVA on 14th March 2026.
6. Proof of student status (UG/PG/Ph.D.) at the time of presentation is mandatory.
7. Certificates:
 - Merit Certificates for 1st and 2nd positions
 - Participation Certificates for all presenting authors

Registration Fees

- DCRUST Students: No registration fee
- Outside Students: ₹100 per participant (to be paid at the registration desk)

Event 1 Overview

WALKING-DEAD(Autonomous Line Follower Challenge)

Team Capacity: 1 – 4 participants

Event Description

In this high-stakes autonomous navigation challenge, your robot is the sole survivor. Tasked with traversing a treacherous and unknown path, your machine must rely entirely on its onboard logic to stay on track. One wrong move, one sensor glitch, or three seconds off the line, and the run is terminated. Precision is your only lifeline.

Event Rules

1. Hardware: Participants must compete only with the bots provided by the organizers.
2. Coding Phase: Teams must bring their own laptops to code the provided bots.
3. Logic: Participants must code the bots for a Bang-Bang Line Follower Robot (LFR) algorithm within a strictly allotted time of 20 minutes. Modifications: No modifications to the bot hardware or the final code are allowed once the run begins.
4. Track: 2–3 cm wide Black line on a White background; the track layout is undisclosed until the event.
5. Autonomy: The robot must be fully autonomous. No external wired or wireless control is permitted once the run begins.
6. Intervention and Penalties:
7. No Technical Intervention or Modification is allowed for the bot once the Run starts including Dry Run.
8. If the bot is off the line for 3 continuous seconds without a manual reset, the run is over (DNF).
9. Teams may reset their robot by hand if it gets stuck. This incurs a 1-second penalty, and the robot must be placed back at the previous checkpoint (or start line). The run timer continues during this reset.
10. Time Limit: Maximum 2 minutes per run.
11. Total Score = $(120 - Tr) + (1200 - Tc) - (Pt \times N)$
12. Tr : Run time
13. Tc : Code time
14. Pt : Penalty per touch
15. N : No. of hand touches

Intervention and Penalties

- No technical intervention or modification is allowed once a run starts, including the Dry Run.
- If the robot is off the line for 3 continuous seconds without reset, the run will be declared DNF (Did Not Finish).
- Teams may reset their robot by hand if it gets stuck.
 - This incurs a 1-second penalty.
 - The robot must be placed back at the previous checkpoint or start line.
 - The timer will continue running during the reset.

Event 2 Overview

DUNGEON-DRIVE(Obstacle Rover Challenge)

Team Capacity: 1 - 4 Participants

Event Description

The terrain is hostile, the path is unknown, and the cargo is critical. In this event, teams pilot a rover through an obstacle course designed to challenge standard chassis designs. From sand traps to steep inclines, the robot must not only survive the trek but also perform precise pick-and-place operations. Speed is important, but torque, traction, and control are key.

Event Rules

1. **Hardware:** Participants must compete only with the bots provided by the organizers.
2. **Modifications:** No modifications to the bot are allowed; any intentional changes or damage lead to disqualification.
3. **Arena:**
The Track will be unveiled at the event.
The track, including sand pits and rock zones, will be unveiled at the event.
4. **Run Structure:**
Start: The robot starts in a defined "Base Zone."
Traversal: The robot navigates the obstacle course to reach the "Supply Zone."
Acquisition: The robot must grip the payload. Pushing or dragging the object to the destination is not allowed; it must be lifted off the ground (minimum 1cm clearance).
Transport: The robot runs through the obstacles while holding the object.
Placement: The robot must place the object into a "Drop Zone" (a box or a marked area).
5. **Scoring:**
Obstacle Clearance: +10 points for every obstacle successfully crossed.
Successful Pick and Drop: +20 points for lifting and dropping the object securely.
Time Bonus: (Total Time Limit - Time Taken) points. Only awarded upon successful mission completion
Total Score: Obstacle Points + Mission Points + Time Bonus.
6. **Penalties:**
Dropped Payload: If the object falls during transport, the robot must stop and pick it up again from the previous checkpoint. No point deduction, but time is lost. Manual Intervention: If the bot flips over or gets stuck: -20 Points per touch. The bot is reset to the start of that specific obstacle, not the previous checkpoint.
1. Course Boundary: Going off-road (touching the arena walls or floor outside the track) results in a -5 Point penalty.
7. **Maximum Duration:** 5 minutes

COMPUTER SCIENCE AND ENGINEERING

Event 1 Overview

Web Master (The Ultimate Web Development Challenge)

1. Event Description

- Web Master is a web site development competition where participants showcase their creativity, coding skills, and ability to build functional web pages under time constraints.
- Participants may work individually or in teams of 2 to design, develop, and deploy a responsive web page or mini-project based on the theme revealed on the spot.

2. Event Rules & Guidelines

Team Structure

- Participants can compete solo or in a team of maximum 2 members.
- No team changes allowed once registration is done.

Technical Rules

- Only HTML, CSS, JavaScript allowed unless specified otherwise
- React (optional)
- No copying code from the internet during the event.
- Pre-written templates are not allowed.

3. Rounds (Recommended Structure)

- **Round 1: Web Sprint (Screening Round) – 15 minutes**
 1. Objective: Build a simple landing page based on a theme.
 2. Judgment based on Layout, Color scheme, Basic responsiveness.
 3. Top teams qualify for Round 2.

- **Round 2: Build the Web – Main Round -- 60 minutes**

Theme revealed on the spot. Examples: Portfolio website, E-commerce product page, Event registration page, Blogging interface, Dashboard design

4. **Judgment based on:**

- **User Interface Quality, Functionality, Creativity, Mobile responsiveness, Code quality**

Criteria	Weightage
UI/UX Design	30%
Functionality	15%
Creativity	30%
Responsiveness	15%
Code Quality	10%

Event 2 Overview

Techno Quiz

1. **Event Description:**

- Techno Quiz is a high-energy, fast-paced technical quiz competition designed to test participants' knowledge in Computer Science, emerging technologies, logic, and general tech awareness.
- Participants compete in teams to answer MCQs, buzzer questions, rapid-fire rounds, and problem-solving challenges.

2. • **This event encourages: Technical knowledge, Teamwork, Logical thinking, Quick decision-making**

Round 1: Tech Screening (MCQ Round) – 20 minutes

Format:

- 25-30 Multiple Choice Questions
- Topics include CSE basics, OS, DBMS, AI, Networking, Cybersecurity, Coding logic, and General Tech Awareness

Selection:

- Top scoring teams advance to the next round.

Round 2: Rapid Fire – 30 seconds per team

Format:

- Each team gets 5 questions
- No negative marking
- Fast and spontaneous answers required

Topics: all questions related to computer science, latest tech trends, logical puzzles.

Round 3: Final Round – Code & Concept Challenge

Format:

- Situation-based conceptual questions
- Output prediction
- Bug identification
- Short logic questions

Event 3 Overview

Think Future

- **Event Description:** Think Future is about imagining the next era of technology—an era where AI, automation, robotics, and human imagination redefine how we live, learn, and innovate.
- The idea is to create an event that pushes participants to visualize solutions for the world of tomorrow.

Event Rule :

- 1 or 2 members allowed (not more than 2)
- No team change after registration

Presentation Round : Participants will showcase their creativity and futuristic thinking through:

- Presentation of Innovative Ideas
- Students will propose unique, original, and future-oriented concepts that address real-world or upcoming challenges.
- Demonstration of Mini-Projects or Prototypes
- Participants may display working models, simulations, prototypes, or small-scale implementations that support their concept.
- Showcase of Futuristic Models, Solutions, or Apps
- Students can present digital models, mobile/desktop apps, 3D concepts, or futuristic system designs relevant to the theme Think Future.
- Idea Pitch (5-10 Minutes)

4. Judgement Criteria – Presentation Round

Participants will be evaluated on the basis following parameters:

- **Innovation & Originality – 25%**

Uniqueness of the idea

Creativity in approach

Novel solution to a real-world or future problem

- **Futuristic Relevance – 20%**

Alignment with future technologies (AI, IoT, robotics, sustainability, etc.)

Applicability to the world of 2030 and beyond

Problem-solving potential for future challenges

- **Prototype / Model / App Demonstration – 20%**

Working mini-project, prototype, or conceptual model

Quality of demo or simulation

Practical representation of the idea

- **Technical Understanding – 15%**

Clarity in explaining the technology behind the idea

Logical structure and feasibility

Use of correct terminologies and concepts

- **Presentation Quality – 10%**

Clarity of explanation

Slide design / model arrangement

Time management (5-10 minutes)

Confidence and communication

- **Impact of the Idea – 10%**

How useful or beneficial the solution is

Social, environmental, or technological impact

ELECTRONICS & COMMUNICATION ENGINEERING

Event 1 Overview

ROASTVERSE

Overview : RoastVerse consists of two competitive rounds. The first round is a general MCQ-based quiz, and the second round is a 1v1 technical debate competition.

ROUND 1 – MCQ Quiz (Latest Technologies & Market News)

Overview

- A 20-question MCQ-based quiz will be conducted.
- Participants will receive a printed question paper.
- Students must tick the correct answers on the provided paper.
- The top 12 scoring participants will qualify for Round 2.

Time Limit : 10 Minutes (30 seconds per question)

Rules

- Use of any electronic device is strictly prohibited.
- If any participant is found using electronic devices, immediate disqualification will occur.

ROUND 2 – 1v1 Technical Debate Competition

Overview

- The 12 qualified participants will be divided into 6 pairs (1v1 format).
- Each pair will be assigned a tech-related company or startup.
- Participants will be given time to gather knowledge about the assigned company.
- Each pair will debate against each other.
- The top 6 participants will advance to the final debate round.
- The process will continue in the same manner to determine the top 3 winners.

Time Allocation

- 3 Minutes - Knowledge gathering (research about assigned company/startup)
- 5 Minutes - 1v1 Debate

Judging Criteria

- Accuracy of statistics and company/startup knowledge
- Convincing skills and logical argumentation
- Body language and presentation

Device Usage

- Use of electronic devices (phones only) is allowed during the research phase only.

Event 2 Overview

PROMPT2POSTER

Overview : Prompt2Poster consists of three rounds focused on AI prompt engineering and creative poster generation. Participants will demonstrate their ability to generate accurate and creative posters using AI tools.

ROUND 1 – Prompt Completion (Screening Round)

Overview

- Participants will be given incomplete prompts or image descriptions.
- They must complete the prompt correctly to generate the intended poster using AI tools.
- This round tests prompt understanding and requirement interpretation.
- Top participants will qualify for Round 2.

Time Limit : 10 Minutes

ROUND 2 – Reference Image Recreation

Overview

- Participants will receive a reference image.
- They must recreate a visually similar image by writing an accurate and precise prompt.
- This round evaluates prompt precision and understanding of AI image generation.
- Selected participants will qualify for the final round.

Time Limit : 15 Minutes

Restrictions

- Use of GEMINI NANO BANANA and BANANA PRO models is strictly prohibited in this round.

ROUND 3 – Theme / Situation-Based Poster Design

Overview

- Finalists will be given a real-world theme or situation.
- They must design an impactful poster using AI tools under given constraints.
- Participants must briefly explain their prompt logic.

Time Limit : 20 Minutes

Judging Criteria

- Prompt clarity, detail, and structure
- Creativity and scenario understanding
- Visual quality of the generated poster
- Equal weightage will be given to poster quality and prompt writing

Event 3 Overview

CIRCUIT DESIGN AND DEBUGGING COMPETITION

Overview

- This is a hands-on technical event focused on practical electronics and microprocessor skills. Participants must diagnose, correct, and implement real-world circuit and programming problems. The event progresses from hardware-level debugging to software-level implementation.
- Winners will be determined based on accuracy, understanding, and execution speed.

ROUND 1 – Circuit Debugging on Breadboard

Overview

- Participants will be provided with a breadboard setup containing electronic components and wire connections.
- The circuit will contain incorrect or faulty connections (with or without a reference blueprint).
- Participants must identify errors, correct connections, and make the circuit functional.
- This round tests practical circuit knowledge and debugging skills.

Time Limit : 10 Minutes

ROUND 2 – 8086 Microprocessor Programming

Overview

- Shortlisted participants will be given a predefined 8086 microprocessor program.
- They must correctly implement and execute the program using proper logic and instructions.
- Code accuracy, correct output, and understanding of microprocessor operations will be evaluated.
- Participants who implement the program accurately in the least time will be declared winners.

Time Limit : 15 Minutes

Judging Criteria

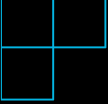

- Accuracy of code implementation
- Time taken for implementation

Note : The number of participants qualifying in each round of each event is subject to the total number of participants registered for the event.

ELECTRICAL ENGINEERING

Event 1 Overview

TECH CHARADES

Description of the Event

Tech Charades is a fun and interactive team-based event where participants act out electrical and technical terms using gestures and expressions while their teammates guess the correct answer within a limited time. The event aims to promote technical awareness in an engaging and entertaining manner.

How the Event Will Work

- Teams will register (3-4 members per team).
- One member from each team will pick a chit containing a technical term.
- The selected member will act out the term without speaking.
- Teammates must guess the term within the given time limit.
- Points will be awarded for each correct answer.
- Teams will rotate turns and actors in subsequent rounds.
- The team with the highest total score will be declared the winner.

Rules and Regulations

- Participants are not allowed to speak, write, or use electronic devices while acting.
- Only gestures, body language, and facial expressions are permitted.
- The event will be conducted in 3 rounds, each with a different difficulty level.
- Teams that take less time to guess correctly will advance to the next round.
- Any violation of rules will lead to disqualification for that round.
- The decision of the event coordinators and judges will be final and binding.

Total Rounds

Round 1 – Preliminary

- Warm-up round to make participants comfortable.
- Teams act out basic electrical and technical components.
- One member acts, others guess.

- Top teams taking less time to guess move to Round 2.

Time Limit: 90 seconds

Round 2 – Semifinals

- Slightly more challenging technical components or terms.
- **Time Limit:** 90 seconds per team
- Top teams taking less time move to Round 3.

Round 3 – Finals

- Final competitive round with higher difficulty.
- **Time Limit:** 2 minutes per team
- The team taking the least time to guess correctly will win.

Winner Criteria

Judges will evaluate participants based on:

- Correctness of Guess - Primary scoring factor
- Time Taken - Faster correct answers score higher
- Rule Compliance - Proper adherence to event rules

Awards: Memento and Certificate

Event 2 Overview

TECH-BID (Tech Auction Challenge)

Description of the Event

- Tech-Bid is an innovative and interactive technical event designed to encourage strategic thinking, teamwork, and the practical application of engineering concepts. The event follows an auction-based format in which teams are provided with a fixed amount of virtual money to bid on technical components, software tools, skill-based cards, and special advantage or constraint cards.
- After the auction phase, teams must design a conceptual solution to a real-world, technology-oriented problem using only the items they successfully purchased. The focus is on idea development, feasibility, and logical application of technology rather than physical implementation.
- The event promotes innovation, decision-making, and problem-solving skills in a competitive yet collaborative environment.

How the Event Will Work

Registration

Teams must consist of 3-5 members. Teams may be interdisciplinary or from the same discipline.

Virtual Money Allocation

Each team will receive ₹10,00,000 virtual currency for use during the auction phase.

Auction Phase

- A live auction will be conducted by coordinators.
- Technical modules, tools, and special cards will be auctioned.
- Teams will bid using their virtual money.
- The highest bidder wins the item.
- The bid amount will be deducted from the team's balance.

Solution Development Phase

- Duration: 30-40 minutes
- Teams must choose one problem statement.
- Solutions must use only the purchased items.

Presentation Phase

- 5 minutes presentation
- 2 minutes Q&A session

Event Rounds

Round 1: Auction Round

Focus on bidding strategy and budget management.

Round 2: Planning and Design Round

Teams prepare structured solutions using diagrams and explanations.

Round 3: Presentation and Evaluation Round

Teams present their solution, strategy, and feasibility.

Rules and Regulations

- Team size must be 3-5 members.
- Each team will receive ₹10,00,000 virtual money.
- Bidding beyond allotted money is prohibited.
- Solutions must use only purchased items.
- Use of mobile phones or electronic gadgets is strictly prohibited unless permitted.
- Plagiarism or unfair practices will result in disqualification.
- Judges' decision will be final and binding.

Awards : Memento and Certificate

Event 3 Overview

MACHINE MANTRA (The Technical Treasure Hunt)

Description of the Event

Machine Mantra is an exciting technical treasure hunt designed exclusively for university students. The event combines fun with learning, where participants solve technical clues related to machines, laboratories, and equipment located within academic blocks. Each clue tests knowledge of mechanical and electrical concepts while guiding teams to the next location.

How the Event Will Work

- All teams will gather at the JCB Ground.
- Teams will be verified according to the player limit.
- Each team will be assigned a SEE team member.
- Teams will receive the first clue and begin the hunt.
- If a team finds the next clue within the time limit, they proceed to the next round.
- The process continues for all 5 rounds.
- The final round leads to the treasure clue.

Rules and Regulations

- Team Size: 3-4 players per team
- Registration: Through Google Form
- Total Rounds: 5 clue rounds + 1 final treasure clue
- Use of mobile phones is strictly prohibited
- Interaction with members outside the team is not allowed

Round Rules

- Clues will become progressively more difficult.
- Time Limit: 15 minutes per clue
- Teams failing to find the next clue within the time limit will be disqualified.

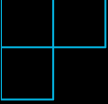

Winner : The team that finds the final treasure clue first will be declared the winner.

Awards: Memento and Certificate

BIO MEDICAL ENGINEERING

Event 1 Overview

POSTER MAKING COMPETITION

The poster must focus on one of the following themes:

- Human Organs
- Digital World and Healthcare
- Renewable Energy
- Menace of Antibiotics
- Infrastructure as Utility
- Digital Threat for Nations
- Architecture of Modern Hospitals

Rules and Regulations

- Drawing/Painting must be made on A3 size (297 × 420 mm) or A2 size (420 × 594 mm) paper only.
- Acceptable drawing/painting tools include pencil, crayons, water colours, oil paints, etc.
- Photographs, wires, collage materials, and any 3D objects are strictly prohibited. The artwork must remain flat on paper.
- The poster must be prepared on the spot during the competition.
- The drawing/painting must not include any words, slogans, or national flags.
- The artwork must not represent any particular individual, organization, brand name, or religious theme.
- The selected topic must be clearly mentioned on the top margin of the front side of the poster.
- The participant's Name, Roll Number, Department, and Contact Details must be clearly written on the back of the poster in English.
- Participants must bring their own required materials on the day of the event.
- The decision of the judges will be final and no disputes will be entertained.
- Team comprises only 1 participant (Individual Event).

Competition Format

The competition will consist of two rounds:

Round 1 – Poster Making

Time Limit: 75 Minutes

Participants will create their poster based on the selected theme.

Round 2 – Explanation Round

Time Limit: 10 Minutes per Participant

Participants must explain their poster. A “spoiler” element (additional perspective/topic twist) will be given on the spot, and participants must incorporate it into their explanation.

Event 2 Overview

BIOMEDICAL TECH QUIZ

RULE BOOK

- Team comprises 3 participants only.
- Students from any discipline are eligible to participate.
- The quiz will consist of four rounds:
 - MCQ Round
 - Identification Round
 - Rapid Fire Round
 - Buzzer Round
- Question areas include:
 - Broad areas of Biomedical Engineering
 - Current Affairs
 - Other Engineering Disciplines
- Specific rules regarding time limits and round format will be announced before the start of the competition.
- Use of mobile phones or any electronic devices is strictly prohibited.
- The decision of the judges will be final and binding. No disputes will be entertained.

BIOMEDICAL DEBATE COMPETITION

RULE BOOK

1. Each team will consist of 2 participants.
2. Each speaker will be given 3 minutes to present their argument.
3. A rebuttal time of 1 minute will be provided to each team.
4. Reading from mobile phones or written papers is not allowed.
5. Offensive, inappropriate, or disrespectful language is strictly prohibited.
6. Participants must speak only during their allotted turn.
7. Exceeding the time limit will result in negative marking.
8. The decision of the judges will be final and binding.

GENERAL RULES

- Students from any discipline are eligible to participate.
- Registration is compulsory for all participants in every event.
- Participants must maintain discipline throughout the event.
- Any misconduct may lead to disqualification.

Event 3 Overview

BIOMEDICAL DEBATE COMPETITION

Rules and Regulations

1. Each team will consist of 2 participants.
2. Each speaker will get 3 minutes to present their argument.
3. Rebuttal time of 1 minute will be given to each team.
4. Reading from mobile or paper is not allowed.
5. Offensive or disrespectful language is strictly prohibited.
6. Participants must speak only when their turn is given.
7. Exceeding time limit will lead to negative marking.
8. Judges' decision will be final and binding.

- Students from any discipline can participate
- Registration compulsory for all participants in every event

Student-Co-Coordinator- Ankit **Mob.No.** 9350660602

MECHANICAL ENGINEERING

Event 1 Overview

SKY GLIDER (Paper Glider Competition)

1. Event Structure

The competition consists of three distinct rounds designed to test the aerodynamic efficiency, stability, distance, and control of paper gliders.

Round 1: The Distance Dash (Longest Flight)

Objective: To achieve the maximum horizontal distance from the launch point.

Measurement: Distance will be measured in a straight line from the launch point to the point where the glider first touches the ground.

Props Required:

- 50-meter measuring tape
- Floor markers placed at 10m, 20m, and 30m intervals

Round 2: The Time-Looper (Maximum Airtime)

Objective: To keep the plane airborne for the longest possible duration.

Measurement: A stopwatch will start the moment the plane leaves the participant's hand and will stop when the plane touches the ground or any obstacle.

Props Required:

- Multiple digital stopwatches operated by official volunteers

Round 3: The Precision Strike (Target Round)

Objective: To demonstrate flight control by passing the glider through a designated target.

Measurement: Participants will stand 5-7 meters away from a suspended hoop (Hula-hoop or PVC ring).

Chances: Each participant/team will receive 3 attempts.

Props Required:

- Suspended ring (target)
- Clearly marked launch boundary

2. Materials and Props

Paper: Only standard A4 sheets (fixed GSM) provided by the organizers may be used.

Weights: One standard paper clip may be used for balance (subject to confirmation by organizers).

Adhesives: Use of glue, tape, staples, cutting, or tearing of paper is strictly prohibited.

Identification: Every glider must be marked with a Unique Registration Code (e.g., P-101) at the registration desk.

3. Rules for Participants

Construction: Planes must be constructed purely by folding. No cutting, tearing, or ripping is allowed.

Preparation Time: Participants will be given 10 minutes to fold their gliders before the competition rounds begin.

Launch Discipline: Both feet must remain behind the designated “Launch Line” during the throw. Stepping over the line will result in a “Void Throw.”

No Modifications: Once a round has started, no additional materials or modifications may be made to the glider.

4. Judging and Scoring Criteria

The final winner (Sky-Glider Champion) will be determined based on the cumulative score across all three rounds.

Evaluation Parameters:

- Distance Achieved (Round 1)
- Airtime Duration (Round 2)
- Accuracy and Target Completion (Round 3)
- Rule Compliance

In case of a tie, the participant/team with the highest score in the Precision Strike round will be declared the winner.

Awards:

Winner – Certificate and Memento

Participation Certificates – For all eligible participants

Event 2 Overview

DESIGN MIND (CAD Design Competition – AutoCAD)

Description

- Design Mind is a technical design competition focused on evaluating the proficiency, creativity, and speed of students in Computer-Aided Design (CAD), specifically using AutoCAD.
- The event provides a platform for aspiring engineers and designers to demonstrate their ability to transform abstract concepts into precise 2D drafts and 3D models.
- Beyond simple drafting, Design Mind challenges participants to solve real-world engineering problems through design. The competition emphasizes adherence to industry standards, geometric tolerancing, technical accuracy, and innovative thinking. Whether beginner or experienced, this competition serves as a comprehensive test of design capability and technical excellence.

Objectives

- To foster a culture of design innovation and technical excellence among students.
- To evaluate proficiency in AutoCAD tools, commands, and shortcuts.
- To bridge the gap between theoretical engineering graphics and practical industrial applications.

Eligibility

- Open to all university and college students.
- Participants from all academic years are eligible.
- Participation is individual only.

Competition Format

Round 1: The Speed Draft (Elimination Round)

Duration: 30 Minutes

Task: Participants must replicate a complex 2D drawing provided to them with 100% dimensional accuracy within the shortest possible time.

Focus: Speed, command fluency, and drafting accuracy.

Round 2: The Design Challenge (Final Round)

Duration: 90 Minutes

Task: Participants will be given a real-world design problem statement (for example: “Design a compact gear assembly” or “Create a floor plan for a sustainable tiny house”).

They must develop:

- A detailed 2D layout
- or
- A basic 3D wireframe model

Focus: Creativity, functionality, dimensioning, and proper use of layers.

Modeling Guidelines

- **Accuracy:** The model must precisely represent all details and dimensions as per the provided specifications.
- **File Format:** Submissions must include the native CAD file and an export in a universal format (e.g., .STL or .STEP).

Evaluation Criteria

- **Accuracy (40%)**

The model must closely match the provided specifications in terms of dimensions, geometry, and features.

- **Completeness (20%)**

All required features, components, and details must be included.

- **Efficiency (20%)**

Effective and optimized use of CAD tools without unnecessary complexity.

- **Innovation (10%)**

Use of advanced CAD techniques such as parametric modeling, simulation, or rendering.

- **Question and Answer Session (10%)**

Clarity in explaining the design approach, tools used, and technical decisions.

Rules and Regulations

- All participants must complete their tasks within the specified time limit.
- PCs will be provided by the management of TECHNOVA.
- All CAD models must be original work created during the competition period.
- Participants must strictly follow the provided object/component specifications.
- Use of external CAD templates or pre-designed models is strictly prohibited.
- A PDF drawing (for Round 1) will be provided at the time of the competition.
- Use of mobile phones or electronic devices is strictly prohibited during the event. Any violation will result in immediate disqualification.
- Judges' decisions will be final and binding.

Judging Panel

- CAD experts and professionals from design and engineering industries.
- Academic faculty specializing in CAD software and 3D modeling.

Awards:

Winner – Certificate and Memento

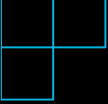

Participation Certificates – For all eligible participants

CIVIL ENGINEERING

Event 1 Overview

CHAKRAVYUH

- Chakravayuh is an adventurous and fast-paced event that puts your mind, teamwork, and problem-solving skills to the test. Participants must follow clues, crack puzzles, and race through challenges to find the hidden treasure.
- It's a journey full of twists, turns, and surprises – only the smartest and quickest team will claim the prize!

Chakravayuh – Rules

- Each team will be given an initial clue at the start of the event.
- Using that clue, teams must search for the next location where the following clue is hidden and complete the task provided in the clue.
- This process continues from clue to clue, leading the teams closer to the final destination.
- The team that reaches the final location first and has all required clues in hand will be declared the winner.
- Teams must not tamper with or hide clues meant for other participants.
- In case of any dispute or confusion, the decision of the management committee will be final.

Event 2 Overview

BRIDGE IT RIGHT

- "Bridge It Right" is a hands-on event where creativity meets engineering!
- Participants will design and construct a model bridge using limited materials, aiming for maximum strength and stability. It's a challenge of planning, precision, and teamwork — let's see who can really bridge the gap between ideas and execution!

Bridge It Right – Rules

- Participants must construct a bridge using only ice cream sticks and glue, which will be provided by the organizers.
- The bridge must have a minimum span of 30 cm.
- Teams are free to choose any type or design of bridge they wish to build.
- Once completed, the strength of each bridge will be tested by placing weights on it.
- The team whose bridge holds the maximum weight without collapsing will be declared the winner.
- Each team must decide for themselves how much weight they want to attempt during testing.
- In case of any dispute or confusion, the decision of the management committee will be final.

Event 3 Overview

THINK & SPRINT

“Think & Sprint” is a quick, energetic game where players think fast and move faster. Participants solve a question or clue and sprint to the correct answer, combining mental alertness and speed in a fun and engaging way.

Think & Sprint – Rules

- Players will play individually; in each round only 6 members will participate.
- Players roll a dice and, according to the number, find the material from a pre-decided chart by sprinting from a certain distance (as instructed by the management team at the time of play) and submit it to the moderator.
- Players have 3 minutes to collect a minimum of 5 materials by choosing the correct ones.
- Each correct guess will earn 10 points, and each incorrect guess will result in -5 points.
- On the signal, players sprint/move to the option or answer zone they believe is correct.
- Any misbehaviour, such as pushing or disturbing another player, will lead to disqualification by the management.
- No changing positions after the time is over.
- The player with the highest score wins the round.
- From each round, one winner will be selected for the final round.
- After the final round, the ultimate winner will be declared.

CHEMICAL ENGINEERING

Event 1 Overview

Knowledge Knockout Quiz (MIND CLASH)

A battle of intellect where knowledge meets speed and strategy!

- **Structure**
 - The quiz consists of two rounds.
 - Round 1: Paper-pen round
 - 30 questions (General Knowledge and Aptitude)
 - Duration: 30 minutes
 - Top 6 teams qualify for the Buzzer Round (Round 2).
- **Team Composition**
 - 2 players per self-made team.
- **Rules**
 - No negative marking in either round.
 - No gadgets allowed. If found, it will result in immediate disqualification.
 - A tiebreaker question will be used if scores are equal after the final buzzer round.
- **Results**
 - Three winner positions will be declared based on the second round scores.

Event 2 Overview

Get Recognized for Your Personality (GRYP)

Step into the spotlight and let your personality speak!

- **Participation**
 - Limited to 20 participants.
 - Selection on a first-come-first-served basis.
- **Format**
 - One interview round per participant.
 - 6-8 questions.
 - 5-6 minutes per participant.
 - Questions assess personality and critical thinking skills.
- **Requirements**

- Business formal attire is mandatory.
- Judges will score all interviewees based on consistent grading metrics.

● **Results**

- Participants with the highest three scores will be awarded 1st, 2nd, and 3rd positions respectively.

Event 3 Overview

CHEMSPARK

A platform to ignite innovation and solve real-world chemical engineering challenges!

● **Team Composition**

- Each team must consist of 2-3 participants.

● **Event Flow**

- The organizing committee will release the problem statements at the event inauguration.
- Use of textbooks, research papers, simulation software (Aspen, MATLAB, etc.), and internet is permitted.
- Direct copying of existing solutions is strictly prohibited.

● **Submission Requirements**

- Teams must submit:
 - Problem analysis
 - Presentation

● **Each team will get:**

- 8-10 minutes for presentation
- 3-5 minutes for Q&A

Judging Criteria

Projects will be evaluated based on:

1. Innovation & Creativity - 25%
2. Technical Feasibility - 25%
3. Sustainability & Safety - 20%
4. Economic Viability - 15%
5. Presentation & Clarity - 15%

BIO TECHNOLOGY

Event 1 Overview

The Brainy Brawl

Round 1 – Science Bingo Challenge

Rules and Regulations

1. Teams will be formed based on the total number of participants. Each team will consist of either 2 or 3 members.
2. Each team will be provided with a Bingo card containing various science-related terms.
3. The event coordinator will announce definitions one by one.
4. Teams must carefully listen and identify the correct corresponding term on their Bingo card.
5. Teams must mark the correct term on their card when they recognize the definition.
6. The first three teams to complete any five rows, columns, or diagonals and loudly announce “Bingo” will win this round.
7. If a team incorrectly calls “Bingo,” they may be disqualified from the round at the discretion of the coordinators.

Round 2 – Individual Knowledge Showdown

Rules and Regulations

1. Qualified teams from Round 1 will be dissolved. Each member will participate individually in this round.
2. Each participant will be asked a total of 8 questions.
3. Participants will be given 30 seconds to answer each question.
4. Points will be awarded based on:
 - Accuracy of the answer
 - Time taken to respond within the given limit
5. No negative marking will be applied unless announced by the coordinators.
6. The top three participants with the highest total points will be declared as winners.
7. Certificates will be awarded to the top three participants.

General Guidelines

- Participants must maintain discipline throughout the event.
- Use of mobile phones or electronic devices is strictly prohibited.
- The decision of the judges and event coordinators will be final and binding.

Event 2 Overview

BRAIN QUEST ARENA

ROUND 1 – Multiple Choice Challenge

Rules and Regulations

1. Each team will consist of 2 members only.
2. The round will include 5 multiple-choice questions.
3. Each team will be given 30 seconds to answer each question.
4. Marking Scheme:
 - +2 marks for each correct answer
 - -0.5 marks for each incorrect answer
5. No use of mobile phones, smart watches, calculators, or any electronic devices is permitted during the round.
6. The top 5 scoring teams at the end of Round 1 will qualify for Round 2.

ROUND 2 – Buzzer Round

Rules and Regulations

1. Round 2 will be a buzzer-based round. Teams must press the buzzer to answer.
2. Only the first team to press the buzzer will be given the opportunity to respond.
3. Teams must identify, interpret, or analyze the displayed scientific image, diagram, or graph within the given time.
4. Marking Scheme:
 - +5 marks for each correct answer
 - No negative marking for incorrect answers
5. The decision of the judges will be final and binding in case of any dispute.

General Instructions

- Participants must maintain discipline throughout the event.
- Any misconduct or violation of rules may lead to disqualification.
- The organizers reserve the right to modify the rules if necessary.

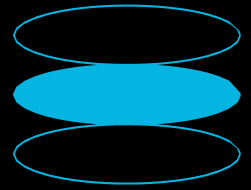

CONTACT:

Student coordinator : Ayushi **Mob.No.:** 7827216646

Student co-coordinator: Sidharth. **Mob.No.:** 80590 62592

DEPARTMENT OF PHYSICS

Event 1 Overview

PHYSI-HUNT

About the Event

- PHYSI-HUNT is an exciting, campus-based physics exploration event where participants capture selfies showcasing real-life physics phenomena around the university campus.
- It is a three-round competition designed to test observation skills, conceptual understanding, and scientific reasoning.
- The event is open to all undergraduate and graduate students of the university (any department).

Round Details

- **Round 1: Selfie Round**
 - Each team must capture 10 selfies showing different physical phenomena within the campus.
 - Every selfie must be taken at a different location.
 - The fastest top 10 teams will qualify for Round 2.
- **Round 2: Explanation Round**
 - Teams must elaborate on the pictures they have clicked.
 - They must clearly explain the physics phenomenon involved.
 - The best 5 teams will qualify for Round 3.
- **Round 3: Question Round**
 - The panel will ask questions related to the physics phenomena identified by the team.
 - Based on performance, one team will be declared the winner.

Rules

1. Each team will consist of 2 members.
2. The event consists of 3 rounds:
 - Selfie Round
 - Explanation Round
 - Question Round
3. Only one team will be declared the overall winner, and the prize will be awarded to the team (not individuals).
4. Every selfie must be taken at different locations.
5. Team members must bring their own mobile phones.
6. The winner will be decided based on least time taken and relevance of selfies.

Prizes

Prizes will be awarded as per university decision.

Event 2 Overview

THE ESCAPE ROOM

Brief Description

- A physics-themed Escape Room is an engaging event where participants solve physics-related puzzles and challenges to "escape" within a fixed time.
- It promotes teamwork, critical thinking, and practical application of physics concepts in a fun and competitive environment.

Rounds

- Round 1: Easy Level
- Round 2: Intermediate Level
- Round 3: Hard Level

Participants work in small groups, solving puzzles under time pressure.

Hints will be provided if teams get stuck to maintain pace and excitement.

Rules

1. Students must not exceed the given time limit.
2. Each group will consist of 3 students.
3. Total of 5 teams will participate.
4. Open to all undergraduate and graduate students of university teaching departments (any department).
5. Participants must register before the event.

Event 3 Overview

INNO VISION

Brief Description

"Fact, Fiction & Physics: Busting Science Myths"

Where curiosity meets reality!

Round Details

- **Round 1: Myth Busters**
 - Teams must present 10 science myths.
 - Each myth must be verified with proper fact-checking and explanation.
- **Round 2: Fun Fact Frenzy**
 - Teams present fun facts about scientific phenomena.
 - Facts must be authentic and scientifically valid.
 - The best 3 teams qualify for the final round.
- **Round 3: Quick Fire – "Myth or Reality?"**
 - The panel will ask rapid questions.
 - Teams must identify whether the statement is a Myth or Reality and justify briefly.

Rules

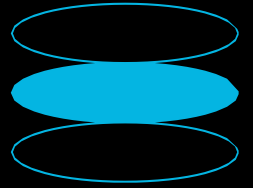

1. Each team will consist of 2 members.
2. The event will have 3 rounds.
3. Maximum 5 teams (each of two students) are allowed.
4. Self-made myths with innovative ideas will be given preference.
5. The judge's decision will be final.
6. Participants must send entries early.
7. Identity Cards must be worn at all times.

CONTACT:

Student coordinator : Pankaj Kumar **Mob.No.:** 8295523523

DEPARTMENT OF MATHEMATICS

Event 1 Overview

Poster Making

The objective behind organization of poster making competition is to bring out the creative expression of students and to gauge their knowledge and awareness of various trends. The aim of the Poster Making Competition is not just to judge the students based on their creative aspects but also to trigger thought process among the students towards recent trends.

Rules and Regulation for Poster Making Competition:

- Each Participant can post only one Poster.
- The poster must be made on the A3 size (11.7 * 16.5 inches) sheet with margins (0.5 inches) drawn with black pen/marker.
- Poster can be made using pencil, crayon, watercolor, oil paint, etc. Photographs, wires, other 3D objects, print-outs won't be acceptable. It should be original and hand made.
- The Topic of poster and theme should be clearly mentioned at the Top Margin of the Poster.
- Participant should submit their poster with explanation of the topic and content of the poster to judges.
- Each participant will be given maximum 2 hours.

Judgement Criteria:

Judgment will be based on:

- Relevance to the theme.
- Originality.
- Artistic composition.
- Creativity.
- Message conveyed by the poster.
- Effectiveness in communicating the intended message

Topics for Poster Making:

Any student can be selected by judges for random topic from the following list.

1. Maths in Daily Life
2. AI-intelligence or illusion
3. Unity in Diversity
4. Healthy Student Life
5. Digital Addiction
6. Cyber Safety
7. Gender Equality
8. Save Environment
9. Yoga for Healthy Life
10. Humanity & Technology

Event 2 Overview

Debate

The objective behind organisation of debate competition is to develop excellent oral and written communication skills, and to gauge their knowledge and awareness of various topics. The aim of the Debate is not just to judge the students based on their oral skills aspects but also about the knowledge among the students towards recent topics.

Process of Debate:

- There are two teams, each consisting of two or three speakers depending on number of participants. One team (the affirmative) supports the topic, and the other (the negative) opposes the topic.
- There shall be organizers, who shall control the proceedings.
- The speeches and speaking time are divided equally between the two teams.
- Each speaker makes a speech they have prepared to argue their case. The sides speak in turn, starting with the proposer of the topic (affirmative, negative, affirmative, negative). Each speaker has a specified amount of time to speak.
- Then the debate can be opened to the floor, with speakers standing up to offer points supporting or opposing the topic. Each speaker from the floor is allowed a specified amount of time.
- Each team may then speak in 'rebuttal', after a short period has been allowed for the teams to consult. This means that they have a chance to argue against points raised by the opposition. Each team may have one rebuttal speech each, or more. The first rebuttal speech is made by the negative side and the final rebuttal speech is made by the affirmative.

Rules and regulation for Debate Competition:

- The team supporting the topic must not shift its point of view. The same goes for the opposition, who must oppose the topic completely (whatever their private opinions may be).
- If a speaker makes a statement, they must be able to provide evidence or reasons to support the statement.
- Facts presented in a debate must be accurate.
- Speakers may not bring up new points in a rebuttal speech.

- Members of the house (anyone involved in the debate) may interrupt a speaker by raising their hands and indicating that they have a 'point of order'. This means that they wish to point out that one of the rules of debate is being broken (e.g. the speaker is speaking overtime, or does not have evidence to support his or her point).
- Members may also raise their hands with a 'point of information' (a question or some information they have to offer). The speaker may choose to allow the member to speak, but does not have to.
- Each participant will be given maximum 10 minutes' time to speak either in favour or against the subject. A warning bell will be given after 8 minutes and a final bell after 10 minutes. If the participants exceed the allocated time then the marks will be deducted at the discretion of the judges.

Judging:

The winning team in a debate is usually decided on the basis of the quality of the debating, by a judge, or judges.

MARKING CRITERIA

Marks may be awarded as per the following criteria out of the marks allocated against each category.

S.No.	Marking Criteria	Number of Marks
1	Contents/Substance	25
2	Oratory Skills	25
3	Presentation Skills	20
4	Clarity of thoughts	20
5	Confidence	10

The average of the marks awarded by all judges should be calculated. The average marks thus calculated shall be the final score for a particular Candidate on the basis of which who so ever has scored the highest will be declared winner & second highest scorer will be declared as first runner-up and third highest will be declared as second runner-up of the event.

Topics for debate:

Any student or team of students can be selected by judges for random topic from the following list.

Debate topics

- 1) Artificial Intelligence: Boon or Bane for Humanity?
- 2) Will AI Replace Human Jobs Completely?
- 3) Is Data Privacy a Myth in the Digital Age?
- 4) Social Media: Connecting People or Destroying Relationships?
- 5) Should Governments Control Social Media Platforms?
- 6) Online Education vs Offline Education: Which Is Better Today?
- 7) Are Exams Relevant in the Age of AI?
- 8) Technology Is Controlling Humans, Not Vice Versa
- 9) Future Without Cash: Is Digital Currency Safe?

10) Can Technology Save the Environment?

11) Electric Vehicles: Real Solution or Just Hype?

12) Acceptance of Third Gender and Homosexuality in Modern Society

Event 3 Overview

Quiz

The objective behind organisation of Quiz competition is to check their knowledge and awareness of subject. The aim of the Quiz is not just to judge the students based on their subject knowledge but also about the application of the subject matter what they have learned.

Rules and Regulation for Quiz Competition:

Teams will be either of 2 member or 4 members depending on number of participants.

Round 1: General Round – Each team - quota of 4 questions.

- In this round each team has its own quota of 4 questions and other questions passed to it from the previous team that did not answer.
- A team gets 30 seconds to answer the question intended for it, and is awarded 20 points for answering it.
- If the team, the question intended for gives a wrong answer, the quiz master will give the correct answer.
- If the team that the question intended for passes it. The next team/s get 15 seconds to answer it and is awarded 10 points for the right answer.
- The team members can discuss before giving the answer. If a team cannot answer a question, they can pass it or after 30 seconds it gets automatically passed to the next team.
- If a team is answering a question and the time passes, then the team gets to complete the answer and is awarded points for the right answer.
- There is no negative marking for wrong answer.
- No buzzer is used in this round

Round 2: Rapid Fire Round – Each team quota of 10 questions. Time limit

- In this round each team will be asked 10 questions one after another.
- On the immediate completion of a question, each team gets 5 seconds to answer it.
- If a team is not able to answer a question, they can pass it for the next question.
- There is no team discussion in this round.
- 10 points is awarded for the correct answer.
- No negative points for the wrong answer.
- Once a question is passed the team cannot give an answer later.
- No buzzer is used in this round.

Round 3: Buzzer Round – Ten questions in all

- 10 questions will be fired at all the teams one after another.
- The teams can discuss among themselves and then press the buzzer/bell to answer the question first. No discussion is allowed after pressing the buzzer.
- The team that presses the buzzer/bell first gets a chance to answer it.
- 10 points for the correct answer and minus 5 points for the wrong answer.
- If a team doesn't answer or gives a wrong answer after they press buzzer, they also lose 5 points.
- If a team presses the buzzer before the question is over, they will be asked to answer it without the question being

completed.

- The question has to be answered in 20 seconds.
- If a question is not answered by the first team who pressed the bell. The team that pressed the bell next gets to answer.
- There are no choices in this round.
- If two teams press the buzzer/bell together there will be a pull of cards to decide who gets the chance to answer if. If the first team answers it correctly, they get a point. If they give a wrong answer they lose 5 points and the next team that pressed the buzzer gets to answer

Round 4: In case of a tie.

In case of a tie after the 3rd round, the tied teams get into a buzzer/bell round.

Rules are similar to buzzer round. If a team answers right that team will win.

The judge's decision is final.

DEPARTMENT OF MANAGEMENT STUDIES

GENERAL RULES

1. The decision of the Judges and Organizing Committee shall be final and binding in all matters related to the event.
2. Participants must strictly follow the instructions given by coordinators and volunteers throughout the event.
3. Use of mobile phones or any electronic gadgets is strictly prohibited during the event.
4. Discussion of answers, ideas, or strategies with other teams/participants during any round is not allowed.
5. Any attempt to copy, exchange, alter, or tamper with question sheets, answer sheets, cards, or materials will lead to immediate disqualification.
6. Misbehavior, inappropriate language, or any action that disrupts discipline will result in disqualification.
7. Participants must maintain professionalism and decorum at all times within the event premises.
8. Teams must adhere strictly to time limits. Failure may result in elimination.
9. No team member changes will be allowed after registration.
10. The Organizing Committee reserves the right to modify rules, rounds, or format with prior announcement.

Event 1 Overview

TEAM TITANS

Each team will have **three members**.

ROUND 1: SPIN A YARN – “STORY TELLING”

- a. Total time limit for the activity will be **2 minutes** for each team.
- b. Two members from each team will be selected randomly.
- c. Each member will be given **1 minute** to speak on the given topic.
- d. Judgement will be made on the basis of **creativity, relevance, and communication skills**.

(Teams with minimum score will be eliminated)

ROUND 2: SURPRISE VISUAL ROUND

Rules will be told on the spot.

(Teams with minimum score will be eliminated)

ROUND 3: DRAW “N” GUESS

- a. Two members will be selected randomly.
- b. Time limit will be **1 minute 30 seconds** for each team.

- c. Topic/Object will be given to one member. That member will instruct, and the other member will draw as per the instructions.
- d. Both team members cannot see each other at the time of activity.
- e. The remaining member will be guessing.

(Teams with minimum score will be eliminated)

ROUND 4: ACTIVITY ROUND

Rules will be told on the spot.

Event 2 Overview

BRAND STORM

No teams required. **Individual entry only.**

ROUND 1 – NAAM & NAARA

Rules:

- You will be assigned a product type (e.g., notebook, snack, bottled water).
- Create:
 1. Brand Name
 2. Tagline
 3. Logo Design

Time Limit: 15 minutes

(Individuals with minimum score will be eliminated)

ROUND 2 – REBRAND KARO

Rules:

- You will be given a situation, a new scenario, or a market condition.
- Rebrand your product by:
 1. Giving a new brand name.
 2. Modifying or refining the tagline.
 3. Providing a short brand pitch.

Time Limit:

- 20 minutes preparation
- 1-2 minutes for pitching

Event 3 Overview

BUSINESS HUNT

No teams required. **Individual entry only!**

ROUND 1 – BUSINESS CROSSWORD

Rules:

1. Each participant is given a **unique crossword sheet**.
2. Clues are based on **business/management terms**.
3. Only **one-word answers** are allowed.
4. No external help, discussion, or copying allowed.

(Individuals with minimum score will be eliminated)

ROUND 2 – BUSINESS BINGO

Rules:

1. Each participant gets **5×5 business bingo cards**; clues will be announced by the host.
2. Participants must mark the correct term based on the clue.
3. Only **one line (horizontal/vertical)** can be claimed per participant.
4. The line must be claimed before the next clue and justified if asked.
5. Wrong marking or false claim may lead to disqualification.

ROUND 3 – SCAM YA SAHI?

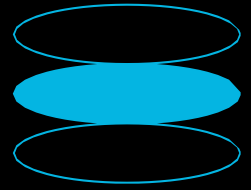

Rules:

1. Participants will be shown **6–8 business offers**.
2. For each offer, participants must:
 - Identify if the offer is **GENUINE** or **FAKE**
 - Provide **one logical explanation** for their choice
3. Scoring is based on **accuracy and reasoning quality**.

Event 1 Overview

INNOVATION ODYSSEY CHALLENGE

Overview:

The Innovation Odyssey Challenge (model making) consists of collecting different items and making a model using those items within a specified time frame.

1. Team Formation:

- Each team should consist of 2 members.
- Teams must be registered before the event starts.

2. There will be 2 Rounds:

- Prelims
- Mains

3. Prelims Round:

- In a team of 2 members, one member will be blindfolded and the other will guide him/her to collect the material placed randomly in the room.
- The guide must use only the code words given by the organizers.

4. Mains Round:

- Selected members will be given a synopsis about a model, and he/she has to guide a Savera student in model making.

5. Time Limit:

- The challenge will have a specific time limit. Any team arriving after the deadline will be disqualified.

6. Respect Property:

- Teams must respect private property and follow all rules and regulations while navigating through the challenge.

- Teams should not damage or disturb the surroundings.

7. Project Presentation:

- After completing the model, students must present their project.
- Each team has to explain the concept, working principle, and materials used in the model they have made.

The organizing team has full authority to decide in case of disputes, and their decision shall be final and binding on all participants.

Event 2 Overview

TECH TITANS TRIVIA

Prelims:

- * There will be a time-limited quiz consisting of basic questions, English words, and puzzle-solving.
- * Students are allowed to use pen and paper in this round.

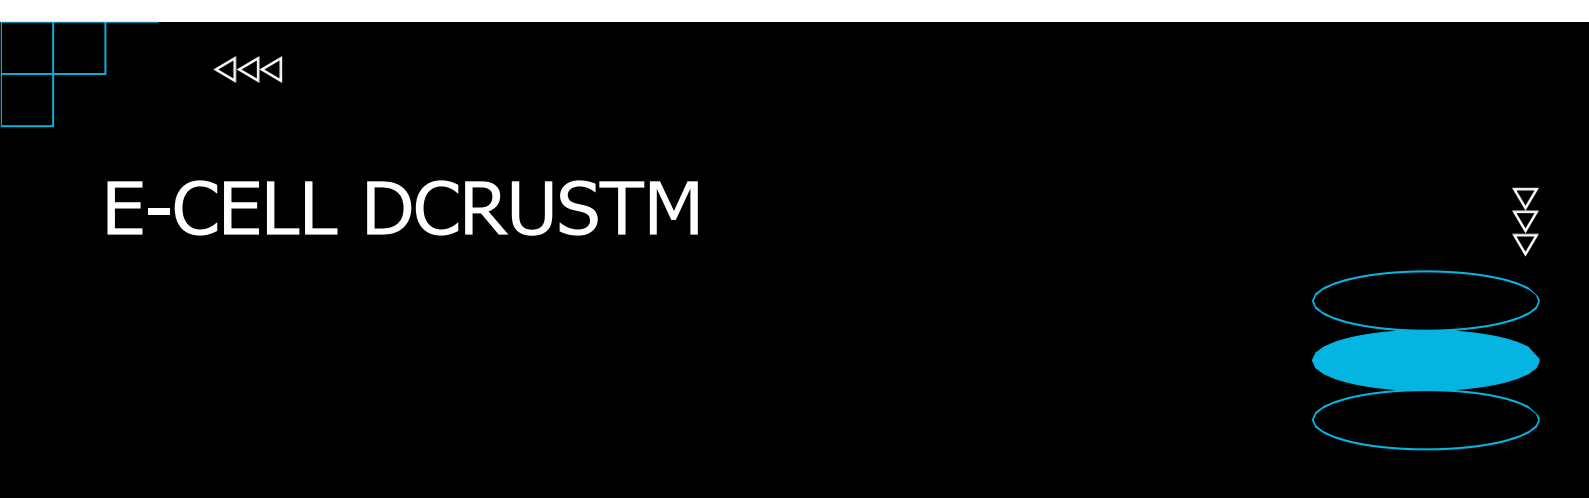

Mains:

- * The process will be the same as the prelims, but the difficulty level of the questions will be increased.
- * **No pen and paper will be allowed in this round.**

Event 1 Overview

THE CORPORATE CLASH: Technova 2026

"Where Boardroom Strategy Meets Comedy Central."

Welcome to the ultimate test of professional wit. *The Corporate Clash* isn't just a debate; it's a high-stakes arena where you'll defend business strategies, navigate crises, and roast your competition—all while maintaining your "Professional Persona."

Event Overview

- Type: Business / Corporate Debate & Roast
- Mode: Offline
- Team Structure: Dynamic Duos (2 members per team)
- The Vibe: Sharp, smart, humorous, and strictly corporate.

The Playbook (Rules & Guidelines)

1. Team Logistics

- Teams must consist of exactly 2 members.
- Both members must be from the same institute.

2. The Battlefield (Rounds)

ROUND	PHASE	THE MISSION
01	STRATEGIC PAHSE	Teams are assigned a business problem and a side to defend. Your goal: convince the "Board" (judges) that your strategy is the only way forward.
02	THE FINAL SHOWDOWN	The Top 6 teams from Round 1 face tougher, high-pressure scenarios. This is where the gloves come off—roast your opponent's strategy with wit and humour.

● The Corporate Code of Conduct

- Talk the Talk: Corporate slang is not just encouraged; it is compulsory. Use those "synergies" and "circles back" to boost your score.
- Classy Roasting: Roasts must be smart, light-hearted, and respectful.

- Hard Limits: Personal attacks or abusive language result in immediate disqualification.
- Watch the Clock: Time management is a core business skill. Going over time leads to negative marking.
- **Performance Metrics (Judging Criteria)**

Your performance will be evaluated on a "Performance Review" scale:

- Executive Presence: Clarity and confidence.
- Market Strategy: Quality of arguments and strategic depth.
- Corporate Lingo: Integration of business slang.
- The "X" Factor: Wit, humour, and your ability to roast without losing your cool.
- **The Winner's Circle**
 - Promotion Path: Only the Top 6 teams move past Round 1.
 - The Podium: 1st, 2nd, and 3rd positions will be awarded based on the highest total scores.
 - The Tie-Breaker: In the event of a tie, the cumulative scores from both rounds will determine the final standing.

Note: The Board of Directors (Judges) has the final word on all disputes.

Event 2 Overview

MIX-MATCHED: The Ultimate Mashup

Where "What If?" meets "How To."

Welcome to the most chaotic ideation challenge at Technova. We're smashing together the technical and the social to see if you can find the billion-dollar idea hidden in the middle.

Mix-Matched is a startup ideation challenge designed to push your creativity and entrepreneurial thinking to the edge.

The Battle Plan

The event is a high-speed sprint divided into three high-stakes phases:

Phase	Duration	The Mission
The Draw	Start	Pick one chit from the Scientific/Technical Jar and one from the Human/Social Jar. No redraws!
Round 1: The Open Pitch	2 Hours (15 min to prepare your next Multibillion Dollar company)	All teams brainstorm and prepare a 2-minute elevator pitch. Every team presents to the judges.
The Cut	—	Judges select the Top 6 Teams based on innovation and feasibility.
Round 2: The Deep Dive	1 Hour	The Final 6 refine their business model, scalability, and answer grueling expert Q&A.

- **The Rules of Engagement**

- The Squad: Teams must consist of 2 to 4 members. Inter-college teams are welcome, but solo participation is strictly prohibited.
- The Fusion: You must integrate two vastly different domains into a single, viable startup concept.
 - *Example:* If you draw Biotechnology and Fashion, you might pitch lab-grown self-repairing fabric.
- Fresh Ideas Only: All concepts must be developed during the event. Using pre-prepared ideas or existing startups will lead to immediate disqualification.
- No Outsourcing: External assistance during the ideation hours is forbidden.

- **The Winner's Circle (Evaluation)**

To make it to the Top 6 and eventually win, you need to master these four pillars:

- a. **The Mashup:** How creatively did you combine the two assigned streams?
- b. **Feasibility:** Is the solution practical and technically sound?
- c. **Market Potential:** Is there a real-world problem being solved that can scale?
- d. **Team Synergy:** Does every member contribute effectively during the pitch?

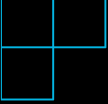

- **The "Fine Print"**

- Time is Money: Strict adherence to time limits for pitching will be enforced.
- Conduct: Professional behaviour is mandatory; any disruption will result in a "red card" (disqualification).
- Final Word: The decision of the judging panel is final and binding.

AGRICULTURE ENGINEERING

Event 1 Overview

IdeaThon (Mini Startup / Innovation Pitch)

Aim : To provide students with an opportunity to develop creative and innovative solutions for real-world agri-tech and engineering problems.

Materials Required

- Chart papers / Whiteboard
- Markers
- Timer
- Judges (2-3 faculty members or experts)

Team Size : 2-4 students

Time Allocation

- 30-45 minutes for brainstorming
- 3-5 minutes presentation per team
- 1-2 minutes Q&A session

Rules and Flow

1. Each team will be given one problem statement (for example: "Water saving in irrigation," "Reducing crop losses," or "Low-cost farm machine").
2. Teams will brainstorm and prepare a solution or prototype idea using chart paper or a rough model.
3. Each team will present their idea before the judges (maximum 5 minutes).
4. Judges will ask questions for 1-2 minutes after each presentation.

Scoring Criteria (Out of 10)

- Innovation / Creativity - 4 points
- Practicality – 3 points
- Presentation / Clarity - 2 points
- Teamwork – 1 point

Winner: The team with the highest total score will be declared the winner.

Event 2 Overview

AGRI-TECH Pictionary

Objective : To test drawing skills, guessing ability, and technical knowledge in an engaging and interactive manner.

Materials Required

- Whiteboard / Chart paper
- Markers
- Slips containing technical/agriculture-related words (e.g., Tractor, Drip Irrigation, Solar Dryer, Combine Harvester, Greenhouse, Cloud Seeding)
- Stopwatch

Team Size : 3-6 students

Time Per Round : 60-90 seconds

Rules and Flow

1. One team member will receive a slip containing a word.
2. The participant must draw the word without using letters, numbers, or speaking.
3. Teammates must guess the word within the given time limit.
4. If guessed within time, the team earns 1 point.
5. If not guessed, no point will be awarded.
6. Each team will receive equal turns (5-6 words each).

Scoring

- Correct guess = 1 point
- Bonus point = If guessed within 30 seconds

Winner: The team with the highest total points after all rounds will be declared the winner.

Event 3 Overview

SEED SORTING RACE

Objective : To test speed and accuracy in sorting while promoting agricultural awareness.

Materials Required

- Mixed seeds (rice, wheat, chickpea, mung) - same mixture for all teams
- Empty bowls (one for each seed type)
- Stopwatch

Team Size : 2-4 students

Time Limit : 2-3 minutes

Rules and Flow

- Each team will be given one plate containing mixed seeds and 3-4 empty bowls.
- When the timer starts, teams must separate the seeds and place them into their respective bowls.
- When time ends, judges will check the bowls for accuracy.

Scoring

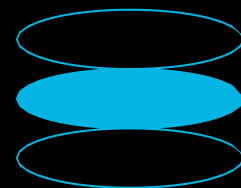

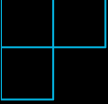

- Each correctly sorted seed = 1 point
- Incorrect placement = -0.5 point
- Bonus points may be awarded to the fastest accurate team

Winner: The team with the highest final score will be declared the winner.

Event 1 Overview

CODE DEBUG

Description

- Code Debug is a technical event organized by DCRUST ODC. Participants may compete individually or in teams of up to two members. During the event, participants will be given pre-written code snippets containing logical and/or syntax errors. Their task is to identify, debug, and correct the errors so that the program runs successfully and produces the specified output.
- Winners will be selected based on correctness, code quality, optimization, and time taken to submit the solution.

Team Formation Rules

1. Participation may be individual or in a team of a maximum of two students.
2. All participants must be currently enrolled in a recognized institute (not necessarily DCRUST).
3. A participant may not be part of more than one team.

Event Rules

1. Participants will be provided with pre-written code snippets containing logical and/or syntax errors.
2. The programming language(s) will be announced prior to the event.
3. Participants must identify, debug, and correct the errors in the given code.
4. The corrected code must generate the required output as specified.
5. Only the final corrected code must be submitted.

Time Rules

1. The event will be conducted within a fixed time limit, which will be announced before the commencement of the event.
2. Late submissions will not be accepted under any circumstances.
3. In case of a tie, preference will be given to the team that submits earlier.

Evaluation Criteria

1. Correctness of Output
2. Code Quality
3. Code Optimization and Readability
4. Time Taken to Submit the Solution

Restrictions

1. Use of mobile phones, internet, or external resources is strictly prohibited.
2. Any form of malpractice or unfair means will result in immediate disqualification.
3. Participants must use only the systems and tools provided by the organizers.
4. Participants must bring their own laptop for the event. Only one laptop is permitted per team, and it must be fully charged before the start of the event.

General Rules

1. The decision of the judges shall be final and binding.
2. Participants must maintain discipline throughout the event.
3. The organizers reserve the right to modify the rules if necessary.
4. Any technical issues must be reported immediately to the event coordinators.
5. All participants must carry their valid Institute ID card and present it at the time of registration for verification.

Certification

Winner certificates will be awarded to the top-performing participants.

Event 2 Overview

SQL MASTER

Description

- SQL Master is a competitive technical event organized by DCRUST ODC to evaluate participants' understanding of Structured Query Language (SQL). The event will be conducted in offline mode using pen and paper.
- Participants will be given SQL-related problem statements and queries. They will be required to analyze the queries, predict their outputs, and write appropriate SQL queries based on the given scenarios. The event is designed to test conceptual clarity, logical thinking, and query-writing skills.

Team Formation Rules

1. Participation is allowed only in teams.
2. Each team must consist of at least three members.
3. All participants must be currently enrolled in a recognized institute (not necessarily DCRUST).
4. A participant may not be part of more than one team.

Event Rules

1. The event will be conducted in offline mode using pen and paper only.
2. Question papers will be distributed to all teams at the beginning of the event.
3. Participants must predict the output of given SQL queries.
4. Participants must also write SQL queries based on the provided problem statements.
5. Answers must be written clearly and neatly on the answer sheets provided.
6. Only the final answers written on paper will be considered for evaluation.

Time Rules

1. The event will be conducted within a fixed time limit, which will be announced before the commencement of the event.
2. Late submissions will not be accepted under any circumstances.

Evaluation Criteria

1. Correctness of Predicted Outputs
2. Accuracy of Written SQL Queries
3. Logical Approach and Query Structure
4. Time Taken to Submit the Solution

Restrictions

1. Use of mobile phones, internet, or any electronic devices is strictly prohibited.
2. Any form of malpractice or unfair means will result in immediate disqualification.
3. Participants must rely solely on their own knowledge and problem-solving skills.

General Rules

1. The decision of the judges shall be final and binding.
2. Participants must maintain discipline throughout the event.
3. The organizers reserve the right to modify the rules if necessary.
4. Any technical issues must be reported immediately to the coordinators.
5. All participants must carry their valid Institute ID card and present it at the time of registration for verification.

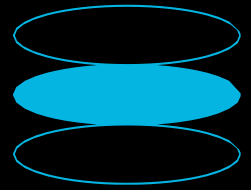

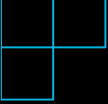

Certification

Winner certificates will be awarded to the top-performing teams.

CONTACT:

Student-Coordinator: Ankit Balhara **Mob.No.** 8684973584

Student-Co-Coordinator- Niyati Goswami **Mob.No.** 7015482633

Event 1 Overview

BRITISH PARLIAMENTARY DEBATE

Rules and Regulations

Team Structure

There two opposing teams:

1. **Government side** – proposes and defends the motion;
2. **Opposition side** – refute and negates the motion.

The Members of the government side are the following.

1. **Prime Minister (PM)** – opens the debate, defines the motion and advances arguments.
2. **Deputy Prime Minister (DPM)** – refute at first instance the case of the opposition, reestablish the government's claim, and advances arguments.

The Members of the Opposition side are the following:

1. **Leader of the Opposition (LO)**- responds directly to the case of the government by giving a direct clash, and advances arguments. May challenge the motion if the definition is challengeable.
2. **Deputy Leader of the Opposition (DPL)** – refutes the case of the DPM, reestablishes the case of the opposition, and advances an argument.

Points and Motions

1. **Point of Information:-** During the constructive speeches, Point of Information (POI) may be raised by the opposing side after the first minute up to the third minute.

- POI may be refused or accepted by the speaker. During reply speeches, no POI may be raised.

- POI is type question that can asked by the non speaking side . The POI should not take time more than 20 sec . The answer timing depends upon the speaker .

2. Point of Order:- To correct a procedural error or rule violation that has occurred during the debate.

Timing Allocation

1. Prime Minister (PM) Constructive – 3 minutes
2. Leader of the Opposition (LO) Constructive – 3 minutes
3. Deputy Prime Minister (DPM) – 3 minutes
4. Deputy Leader of the Opposition (DLO) – 3 minutes
5. Rebuttal Round - 3 minutes (each team will get 1.5 minute to put questions to the other side and the other team must answer the question in that same 1 minute.) The questions and answers must be concise and short.

Role of Government

Prime Minister (PM):

- Define context and parameters of debate. For example, in an open motion like “This House Would Support UCC ”, the debate could be contextualized into whether UCC should be imposed or not .
- Provide concise background or history leading to the issue
- Give framework of government I.e. mechanisms (if any), argumentation flow (what the government’s first argument is and what the Deputy Prime Minister will talk about)
- Introduce 1st argument
- Assert Government stand

Deputy Prime Minister (DPM):

- Rebut first argument from Leader of Opposition
- Rebut rebuttals to PM’s argument
- Introduce 2nd and 3rd argument
- Reassert Government stand and case

Role of Opposition

Leader of Opposition

- Agree or disagree with context/ parameters of debate (any definitional challenges, accusations of squirreling, or unfair set up should be made from the LO speech and no later)
- Rebut Prime Minister’s argument
- Give framework for Opposition case (if Opposition agrees to problem, then their case should provide solution, or at least effectively highlight how Government proposal will worsen the situation)
- Introduce first Opposition argument
- Assert Opposition stand

Deputy Leader of Opposition

- Rebut DPM and PM arguments
- Rebut rebuttals to LO arguments
- Introduce 1st and 2nd (if any) arguments
- Reassert Opposition stand and case

Additional Rules

- Teams will be assigned their respective sides in the debate before the start of the debate through a randomized chit system.
- Participants must not use pre-written material; new, blank sheets will be provided exclusively for note-taking.

Event 2 Overview

Student of The Year

ROUND 1: APTITUDE TEST

1. The test contains MCQ's (multiple choice questions).
2. Each participant has to take the test individually.
3. The marking scheme for the test is as follows-
4. +4 for each correct answer, -1 for each incorrect answer and zero for unanswered questions.
5. There are 25 question for every individual .

ROUND 2: TALENT HUNT

1. The participant has to showcase any cultural talent (dance , singing , rap) or literary talent.
2. The participant can use both the languages, English and Hindi, Punjabi , and Haryanvi .
3. The time limit for each performance is 3-4 minutes.

Note : Any kind of vulgar or offensive act is strictly prohibited and will result in disqualification .

Round 3 : THE PERSONA PITCH

A 30-second rapid-fire round where they must describe themselves using only three objects.

Example: "I am a compass (I lead), a worn-out paperback (I have stories), and a high-voltage wire (I bring the energy).

To assess the contestant's social awareness, problem-solving skills, and vision for a better campus culture. Contestants must propose actionable idea in a minute to make the campus more inclusive, welcoming, and unite

ROUND 4: TREASURE HUNT

1. The participants selected from the previous (Talent Hunt) round are divided into two teams.
2. The participants of the winning team move to the final round.

ROUND 5: PERSONAL INTERVIEW

1. An interview is conducted in the final round. The interview will be taken by the assigned teacher.
2. The participant who clears all the five rounds will be designated as the STUDENT OF THE YEAR.

RULES:

1. No participant will be allowed entry in the mid of the event, only those who appeared for the round and got selected will be counted as qualified entries.
2. Failure to show up for any round by the participant, will be treated as disqualification.
3. A female and A male contestant will be titled as student of the year.

Student-Co-Coordinator- Neelkamal **Mob.No.** 8447949250

DEPARTMENT OF CHEMISTRY

Event 1 Overview

SCIENCE QUIZ

Rules and Regulations

1. Team Composition

Each team must have 3 members.

Cross-disciplinary teams (e.g., one Physicist, one Biologist, one Chemist) are encouraged but not mandatory.

2. Rounds of Competition

Round 1: The Preliminary Grid (Written): A 30-minute MCQ paper to rank teams. The top 5-6 teams advance to the stage.

Round 2: The Rapid Fire: Each team has 60 seconds to answer as many questions as possible. No passing allowed.

Round 3: The Visual Round: Identification of microscopic images, famous scientists, or astronomical phenomena.

Round 4: The "Buzzer" Round: Questions are open to all teams.

+5 points for a correct answer.

-2.5 points for an incorrect answer (to discourage random guessing).

3. General Conduct

No Electronics: Use of phones, smartwatches, or calculators is strictly prohibited.

The "Quizmaster's" Word: The Quizmaster's decision is final. Any disputes must be raised by the Team Captain immediately after the round.

Tie-Breaker: In case of a draw, a "Sudden Death" question will be asked. The first team to buzz and answer correctly wins.

Event 2 Overview

MAGIC OF CHEMISTRY

Rules and Regulations

1. Eligibility and Team Composition

Team Size: Each team must have 2 members.

Level: Open to undergraduate and postgraduate students currently enrolled in a science faculty.

2. Presentation Requirements

Duration: Each team is allotted 20 minutes (15 minutes for the demonstration and 3-5 minutes for the scientific explanation).

The "Reveal": Participants must perform a visual "magic" trick (e.g., color changes, sudden precipitates, or controlled combustion) and then explain the underlying chemical principles using correct terminology and equations.

3. Safety Protocols (Mandatory)

Personal Protective Equipment (PPE): Lab coats, safety goggles, and gloves must be worn throughout the demonstration.

Prohibited Substances: Use of highly toxic, carcinogenic, or unstable explosive compounds is strictly forbidden.

Waste Disposal: Teams are responsible for the safe disposal of their chemical waste in provided containers.

4. Judging Criteria

Teams will be scored out of 100 based on:

Visual Impact (30%): How "magical" and engaging was the demonstration?

Scientific Accuracy (30%): Was the explanation of the chemical reaction precise?

Safety & Technique (20%): Did the team handle materials professionally?

Presentation Skills (20%): Clarity, charisma, and ability to handle Q&A from judges.

5. General Conduct

No Electronics: Use of phones, smartwatches, or calculators is strictly prohibited.

Event 3 Overview

The Alchemist's Cipher

Rules and Regulations

1. Lab Safety & Attire (The Non-Negotiables)

Full PPE Required: No student enters the zone without a lab coat, safety goggles, and nitrile gloves. Closed-toe shoes are mandatory.

Chemical Integrity: Do not taste, sniff directly (use wafting), or touch any chemicals with bare skin.

Waste Disposal: All "clues" (chemical waste) must be disposed of in the designated Hazardous Waste bins, not the regular trash or sink, unless specified.

2. Gameplay Mechanics

The 45-Minute Half-Life: Teams have exactly 45 minutes before the "containment breach." A digital countdown will be visible at all times.

Team Composition: Groups must consist of 3 to 5 "Researchers."

The "Hint" Catalyst: Each team starts with 3 "Catalyst Tokens." * Trading a token to a Lab Proctor will speed up your progress by providing a hint.

Unused tokens at the end of the game act as a time-bonus (e.g., -2 minutes per token for the final leaderboard).

3. Ethical Research (Fair Play)

Digital Silence: All "Communication Devices" (phones) must be deposited in the Lead Shielding Box (a bin at the door) before the timer starts. No Googling molecular weights!

Structural Integrity: Do not use brute force. If a box doesn't open, you haven't found the right "reaction" yet. Tearing, breaking, or dismantling lab equipment is grounds for immediate disqualification.

Data Sharing: Groups are forbidden from sharing "Experimental Results" (answers) with teams waiting in the lobby.

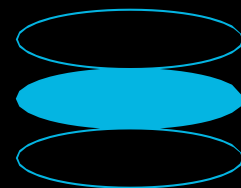

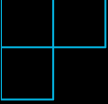

4. The Proctor's Authority

The Lab Proctor (the volunteer in the room) acts as the Chief Safety Officer. Their word is final. If they see a safety violation, they may "freeze" the team for a 2-minute penalty.

CONTACT:

Student co-coordinator : Sahil Mob. No. 9350122173

Event 1 Overview

GAMING EVENT

GENERAL RULES

- **Punctuality:**
Players must join their respective matches/lobbies on time.
After a 5-minute grace period, a walkover will be awarded.
- **Fair Play:**
Strict prohibition of hacks, cheats, scripts, external tools, or engine assistance.
If a participant is found violating this rule, they will be immediately disqualified and banned from future events.
- **Conduct:**
Abusive language, toxic behavior, disrespect toward referees/opponents, or intentional match delays will result in penalties or disqualification.
- **Tie-Break Rules:**
 - BGMI: Higher Total Kills > Higher Placements > Face-off Match
 - Free Fire: More Booyahs > Higher Placement Points > Higher Kill Points
- **Organizer's Decision:**
All disputes will be resolved by the organizing committee.
The decision of the organizers will be final and binding.

- **BGMI(Battlegrounds Mobile India)**

Game Description

- BGMI is an online multiplayer battleground game where players develop strategies, demonstrate tactical skills, collect weapons and resources, eliminate opponents, and aim to secure victory either as a squad or solo.
- Winners earn the title:
“Winner Winner Chicken Dinner.”

Mode : Squad Mode

Maps

- **Qualifiers:** Erangel
- **Semi-Finals & Finals:** Erangel, Sanhok, Miramar

Scoring System

- Kill = 1 Point
- Placement Points = As per match ranking system

Additional Rules

- Emulator players are strictly not allowed.
- Communication will be managed through dedicated WhatsApp Groups.
- No teaming up between squads. Lobby observers will monitor matches.
- Squad leaders must ensure their team is ready at least 10 minutes before the allotted time.
- All maps must be downloaded prior to the match.

● FREE FIRE

Game Description

Free Fire is a popular mobile battle royale game where 50 players are dropped onto an island and compete to become the last surviving team using weapons, vehicles, and strategic gameplay.

Mode

- Battle Royale (Squad Mode)
- Each team must consist of 4 players.

Maps

• Qualifiers (3 Matches):

- Bermuda
- Purgatory

Event 2 Overview

TREASURE HUNT

1. Team Formation

- Each team must consist of 4 members.
- All participants must be currently enrolled students of DCRUST and must carry a valid University ID card.
- Each team must register with a unique team name.
- No changes in team members will be allowed after registration.

2. Objective

- The objective of the treasure hunt is to solve a series of clues and challenges leading to the final treasure.
- The team that completes all tasks correctly in the least amount of time will be declared the winner.

3. Game Structure

- The event will consist of multiple levels/stations across the campus.
- Each clue, once solved, will lead to the next location.
- Challenges may include:
 - Riddles
 - Logical puzzles
 - Technical or general knowledge tasks
 - Simple physical activities

4. Time Limit

- The total duration of the event will be predefined by the organizers.
- Time penalties may be applied for:
 - Incorrect answers
 - Taking hints
 - Rule violations
- Teams failing to finish within the allotted time may be ranked lower or disqualified, at the discretion of the organizers.

5. Use of Mobile Phones

- Mobile phones are not allowed, unless explicitly permitted by the organizers for specific clues.
- Internet usage is allowed only for designated tasks.
- Contacting other teams or seeking external assistance is strictly prohibited.

6. Fair Play & Conduct

- All team members must stay together throughout the event.
- Any form of cheating, clue sharing, shortcut attempts, or misconduct will result in immediate disqualification.
- Participants must maintain discipline and respectful behavior toward fellow participants, volunteers, and organizers.
- Damage to university property will result in strict action.

7. Clue Rules

- Clues must be solved strictly in sequence.
- Teams must not remove, alter, or destroy any clue material.
- Proof of completion (signature, stamp, QR scan, or checkpoint validation) may be required at each station.

8. Judging & Hints

- The decisions of the organizers and judges are final and binding.
- Hints may be provided at the discretion of the organizers.
- Each hint may carry a time penalty as announced before the event.

9. Winning Criteria

- Winners will be decided based on:
 - Maximum number of clues solved
 - Least total time taken
- In case of a tie, a tie-breaker round or challenge will be conducted.

10. Safety Rules

- Restricted or unsafe areas are strictly out of bounds.
- Participants must follow all university safety guidelines.
- Any emergency or injury must be reported immediately to the nearest volunteer or organizer.
- Organizers will not be responsible for loss of personal belongings.

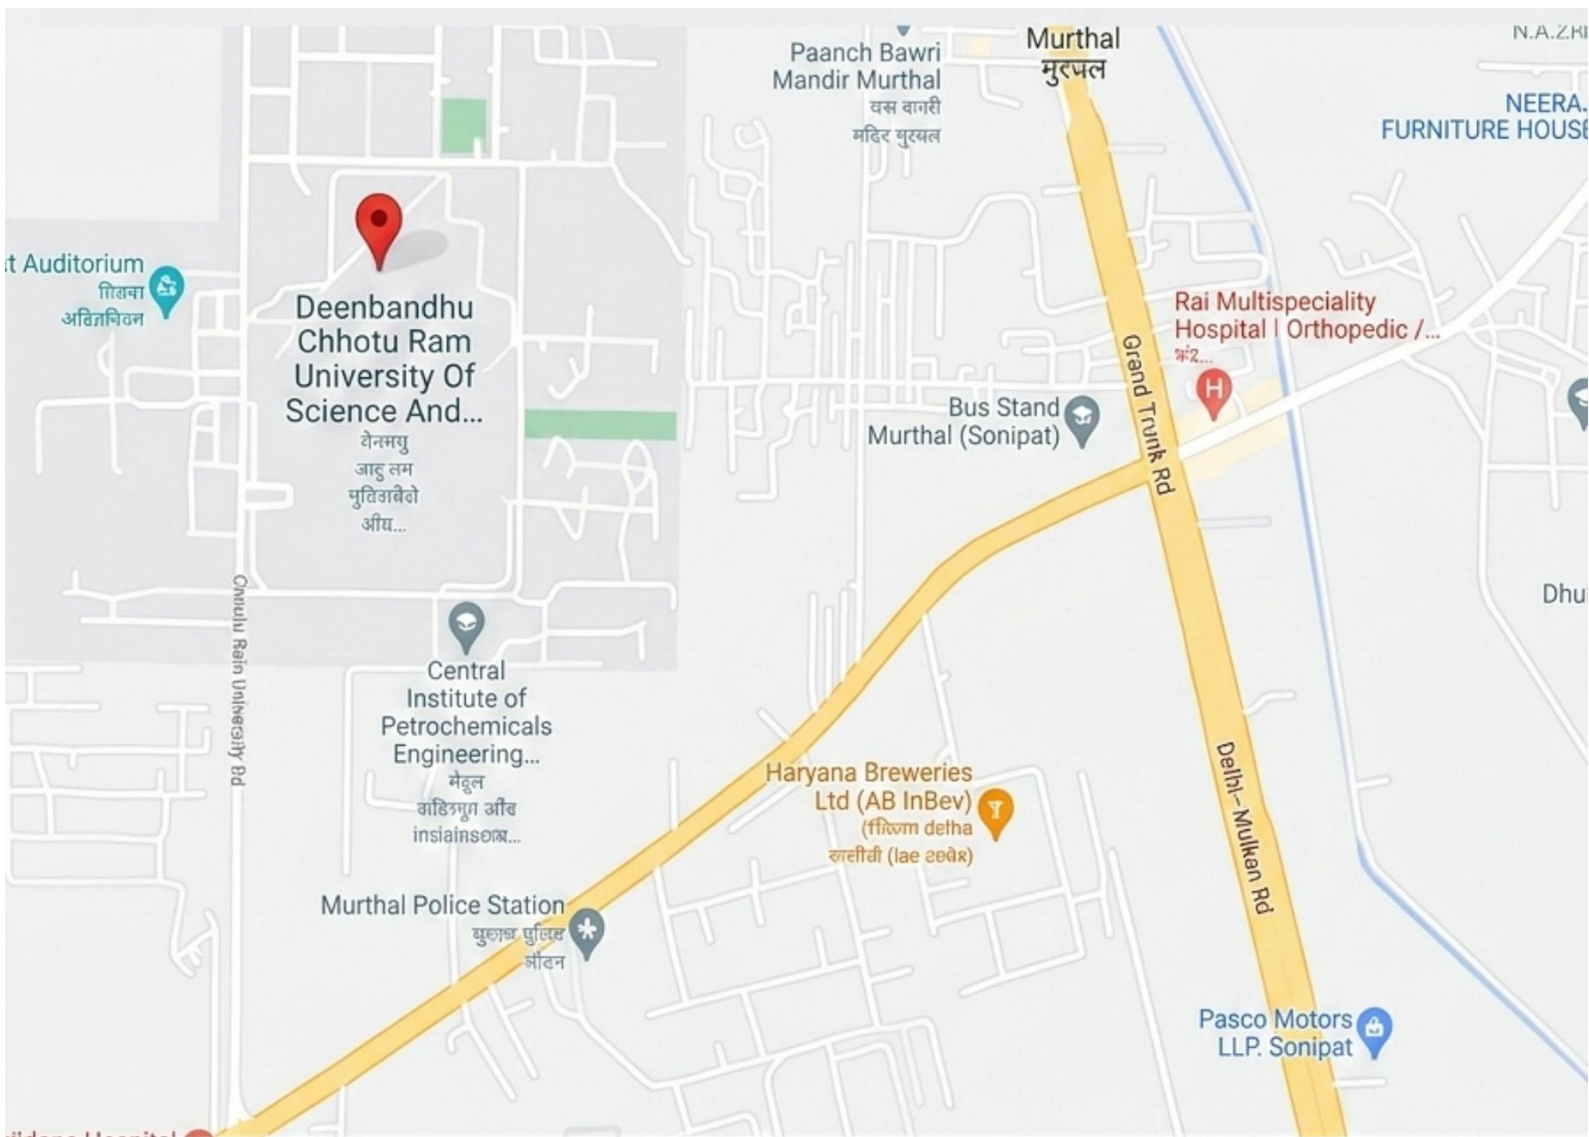

11. Organizer's Authority

- The organizing committee reserves the right to:
 - Modify rules if necessary
 - Disqualify any team for misconduct
 - Pause or cancel the event due to unforeseen circumstances
- All disputes will be resolved by the organizing committee, and their decision shall be final.
